

About Roof Guard™ & Loss Guard™

USCS offers two roof related services to homeowners – **Roof Guard™** and **Loss Guard™**.

Both products are designed to mitigate the potential economic loss sustained by the homeowner in connection with roof related water intrusion damage to their residence.

Roof Guard™ is a monitoring program that provides the homeowner with real time hail detection reporting and follow up inspection and emergency remediation services, thereby enabling the homeowner to determine whether their roof system has been compromised by hail damage. In addition, **Roof Guard™** includes an annual inspection of the roof system to check for potential defects or other damage that may result in future water intrusion damage. The objective of the **Roof Guard™** program is to identify and repair roof defects before they cause serious damage to the home. The average annual cost of **Roof Guard™** is \$199. The annual cost varies based on roof square footage, pitch, the number of roof penetrations, ornamental metal, etc. An exact quote can be obtained within minutes.

Loss Guard™ is an insurance backed “deductible buy down” program that is available only to subscribers of the **Roof Guard™** program, who have a current policy of homeowner’s insurance. **Loss Guard™** offers the homeowner with zero dollar deductible protection on roof repair, replacement and reconstruction related to hail damage. The annual cost of **Loss Guard™** is approximately 10% of the deductible amount set forth in the primary homeowner’s policy for hail, wind, rain damage.

Application Process

The Application Process for both the **Roof Guard™** and **Loss Guard™** programs are fast and simple and can be emailed to customersupport@uscs.ltd by the Account Representative or directly by the Homeowner. For **Roof Guard™**, the online Application consists of two fields – the Homeowner’s Name and the Property Address. For **Loss Guard™**, the Application consists of five fields, the Homeowner’s Name, Property Address, Primary Homeowner’s Insurance Co., Insured Value of the Home, Additional Named Insureds, if applicable. A copy of the Homeowner’s Insurance Policy Summary Page is uploaded as well.

Upon receipt of the Application(s), USCS will transmit a response and a quote for the service within 24 hours.
